COUGARS DOWN SUTTER CREEK

Play Ione Friday On Local Field; Oppose Mosquito CCC Camp Saturday

STANDINGS

	W	L	Pct.
Sutter Creek	3	1	.750
Cougars	2	1	.667
Jackson	2	2	.500
Ione	0	3	.000

El Dorado County high school's Cougars returned from Sutter Creek Tuesday night with a 5 to 1 win over the Sutter Creek high school, and the satisfaction of having trimmed the league leaders under their belts.

Friday they renew the CIF baseball campaign with a game at Marcus P. Bennett, Jr. Memorial Park and on Saturday they have a practice session on the same field with the Mosquito CCC camp nine.

The Cougars scored once in the second, sixth and eighth and took two runs in the ninth, while the Sutter Creek lone tally came in the second.

Leading in the Cougar attack were Maclin, who hit twice in four times at bat, and Ward and Shinn, who hit twice in five times at bat. Lawrence, of Sutter Creek, got three for four.

The Cougars touched Tam for ten bingles while Schroth dished up seven hits, which were well scattered.

The Cougars last Saturday defeated Auburn in a non-league game, 9 to 6.

Tuesday's score:

	R	H	E
Cougars	5	10	2
Sutter Creek	1	7	4

Batteries: Schroth and Ward; Tam and Kipp.

Democrats Win Kansas City

Pendergast Candidate Is Re-Elected As Fusion Opponent Trails By 40,000

KANSAS CITY, Mo., (UP)—Thomas J. Pendergast, head of the democratic faction that has dominated municipal politics for 12 years, proved conclusively today that he still controls one of the country's most efficient political organizations.

Referred to as the leader of the Middle West's "Little Tammany," Pendergast succeeded where Tammany had failed. Complete unofficial returns from yesterday's city election showed that Pendergast's organization had won every post except one, gaining one of the two that it lost four years ago.

Bryce B. Smith, the Pendergast candidate, was re-elected mayor by a margin of 40,000 votes over his coalition opponent, Co. Frederick E. Whitten. Several city councilmen and two municipal judges endorsed by Pendergast also were swept into office by majorities that in most cases were greater than two to one.

WOOLGROWERS JOIN IN FIGHT AGAINST SHEARING STRIKE

SAN FRANCISCO, (UP)—The California Wool Growers' Association has joined forces with the Associated Farmers, Inc., to fight a general state strike of shearers, called by the sheep shearers' union of North America, affiliate of the A. F. of L.

Spokesmen for the wool growers said they believed the strike was "the opening wedge in a move to launch a general agricultural strike." They characterized the walkout "a threat to all agricultural work in California."

A. A. Evans, of Montana, secretary-treasurer of the union, said the strike was called for two reasons—to ask a statewide uniform wage scale and recognition of the Union. He said no increase in wages was sought.

The issue of union recognition involves sub-demands for a closed shop and the labeling of each wool bag to show it was sheared by union workers.

J. P. Bidegaray, San Joaquin valley wool grower, said shearing conditions were at a standstill throughout the southern part of the valley. He estimated that between 300 and 400 men were involved in the Bakersfield area.

Loren Forni was among the Wednesday callers in the county seat from Camino.

OH, SHUCKS; IT GOES BACK—There's still ice in the St. Lawrence river and these youngsters chopped a hole near a tower of the new Thousand Islands International Bridge, at Alexandria Bay, N. Y., and pulled out this half-frozen 22-lb. fish. But it's a muskallunge, out of season and had to go back. Which was discouraging for the youngsters.

2 MATTERS TO BE LAID BEFORE GRAND JURY AT ORGANIZATION MEETING

New Indictment Against Highgrader Suspects Will Be Asked On Testimony Supporting Complaint Recently Filed; Assault Case At Shingle Springs Also To Be Reviewed

The county Grand Jury for 1938 will get plenty of action at its organization meeting Thursday, it was indicated today, when District Attorney Henry S. Lyon announced he will submit to the Grand Jury the evidence he has to support a complaint recently filed in the Justice Court charging Mitchell D. Siderius and Robert Fields with six counts of grand theft.

The two are all ready under Grand Jury indictment for grand theft in connection with the sifting by the 1937 Grand Jury of charges of highgrading at the Black Oak mine.

Subsequent to the filing of this indictment, the District Attorney had filed a new complaint charging six additional counts of grand theft, based on evidence said to have been gathered since the last meeting of the 1937 Grand Jury.

In addition to this matter, the District Attorney has also announced his intention to submit to the Grand Jury

evidence in connection with an alleged assault at Shingle Springs early last Sunday morning, for which William MacArthur is held in the county jail.

Thirty names were drawn Monday morning in the Superior Court and this panel has been summoned for possible Grand Jury service, to meet at the courthouse on Thursday morning at 11 o'clock. At this time nineteen will be chosen to constitute the Grand Jury.

If the usual practice is followed, the court will designate one of the nineteen to be the foreman of the Grand Jury. The group will then retire, elect a secretary, appoint its members to various committees, and will then be ready to take up such matters as may properly come to their attention.

Upon the organization of the Grand Jury for 1938, the members of the 1937 Grand Jury will, by order of the court, be automatically discharged.

Placerville Man Gains Shell Oil Promotion

Promotion of T. S. (Tex) Gandy, widely known Placerville youth, from the position of distributing salesman at Sacramento to that of clerk yardman at Lincoln was announced today by Louis Ames, local manager of the Shell Oil Company.

Gandy, employed by the petroleum concern for the last several years, is a former student body president of the El Dorado High School. While attending prep school he was active in both student affairs and athletics. He is the son of Sam Gandy of this city.

SELF GAINS PROBATION WITH 2-MONTH TERM IN COUNTY JAIL

Tony E. Self, who had pleaded guilty to a charge of issuing worthless checks, will be on probation for a period of two years upon the completion of a term of two months in the county jail.

Sentence was passed in Superior Court Tuesday afternoon by Judge George H. Thompson following the receipt of the report of Probation Officer Charles W. Ball.

Self had issued two checks for small amounts of money upon which he made restitution following his arrest and preliminary hearing at which he was bound over for trial.

He had admitted guilt and thrown himself upon the mercy of the court, appearing for arraignment and for sentencing without counsel.

ALBANY, N. Y., (UP)—Theft of 531 bags of onions valued at \$566.65 was reported to Albany police. The onions, the complaint charged, were stolen from a trailer-truck parked in the business district.

OPPOSE BOOST IN RAIL RATES

State's Agriculture Unable To Pay Increased Charges, Farm Federation Avers

SAN FRANCISCO, (UP)—The California Farm Bureau Federation has obtained "irrefutable evidence" that California agriculture is unable to pay the increased freight rates sought by 52 railroad companies in an application to the California railroad commission. Alex Johnson, federation secretary, said today.

The railway carriers have requested a 15 per cent rate increase on interstate commerce. Recently the interstate commerce commission granted railways increased rates ranging from five to 10 per cent higher for interstate hauling.

Johnson said that briefs filed with the railroad commission by the federation show that 19 important farm commodities grown in California had "an appreciably lower value" in February, 1938, than they did in February, 1937.

This list, Johnson said, included wheat, corn, oats, barley, flax seed, potatoes, milo, hay, cotton, cotton seed, hogs, beef, cattle, veal, mutton, lamb, chickens, turkeys, eggs and wool.

Production in "specialty crops" has increased from 4,440,200 acres in 1933 to 6,145,500 acres in 1937, but the average value per ton has only moved from \$32.96 in 1933 to \$33.40 in 1937, Johnson said.

This list includes almonds, apples, apricots, cherries, figs, grapes, wine, raisins, grapefruit, lemons, oranges, olives, peaches, pears, plums, prunes and walnuts.

Johnson said farm labor costs "have steadily increased:

"Labor wages per month with board averaged \$22.18 for the United States in February, as against \$47 for California; \$33.28 without board per month for the United States, compared to \$73 for California; \$1.19 per day with board for the United States as against \$2.10 for California; and \$1.16 per day without board in the United States compared to \$3 for California."

New Deal Frets At Income Drop

New Lending Powers For RFC May Help Stem Rip Tide Of Continuing Recession

By LYLE C. WILSON

WASHINGTON, (UP)—Chairman Jesse H. Jones of the Reconstruction Finance Corporation, is about to resume a familiar role as President Roosevelt's pinch hitter against depression.

Jones and the RFC are going to have new lending powers. Business will be invited to dip into the RFC treasury in an effort to stem a rip tide of recession which is sweeping securities toward 1932 levels and which is estimated to be washing \$1,000,000,000 a month off the national income.

That national income slump is what worries the new deal most. Mr. Roosevelt wants to raise the figure to \$90,000,000,000 or \$100,000,000,000 a year. It was around \$68,000,000,000 last year and is going away from the new deal goal now instead of toward it.

Under those circumstances the administration is turning to Jones. Mr. Roosevelt is in the process of postponing—perhaps avoiding—new pump priming expenditures or subsidies to big business by throwing the RFC open for loans to practically anyone of good character.

Bank Sued Over 8-Inch Strip Of Land

CANTON, O., (UP)—Augustine Yaru believes the first National Bank of Alliance should pay him \$1,000 monthly rent for use of an 8-inch strip of land for a wall.

In a suit filed in common pleas court he demands the bank either remove the wall from his property or pay him \$1,000 a month as long as it remains there.

The narrow strip of land is a part of a lot adjoining the bank, which Yaru purchased from the bank a year ago.

The bank in a cross-petition asked reformation of the deed, explaining their encroachment on Yaru's property was not discovered until after sale of the lot, and offered to buy back the lot.

Invited To Dinner, He'll Bring Duck

BERKELEY, (UP)—John V. Lockhart will have a duck dinner as soon as he has recovered from cuts on his face.

A duck crashed through the windshield of his truck today. The glass gashed Lockhart, but the mishap left a dead duck in his lap.

REORGANIZATION DEBATE SET

House Meets Thursday To Consider Substitutes For Plan, Voted By Committee

WASHINGTON, (UP)—The house reorganization committee voted seven to two today to report favorably four measures as a substitute for the senate bill giving President Roosevelt broad powers to reorganize the executive department.

Chairman John J. Cochran, D., announced after a brief executive session that the committee formally ratified the decision of its democratic members by a strict party vote after defeating a Republican motion to hold open hearings.

Clearing the way for quick consideration of the reorganization program which the senate approved Monday by a 49 to 42 vote after the bitterest debate of the session, the committee asked the house to meet at 11 a. m. tomorrow to begin work on the substitute measures.

Cochran asked also that debate be limited to six hours, after which the bill would be thrown open to amendments.

The committee voted the favorable report as senate coalitionists, defeated in their fight to block the bill, announced plans to send the house the deluge of expressions of opposition which swamped the upper chamber Sunday and Monday.

Sen. Edward R. Burke, D., Neb., said he would send house members all telegrams he received, and expected that most of the 75,000 to 100,000 letters and telegrams received in the senate also would be sent to the lower chamber.

2 ARRESTS SPUR SEARCH FOR WIDESPREAD OPIUM RING

HOLLYWOOD, (UP)—Police announced intensive drive to break up a ring believed running opium into Hollywood from the east.

Widespread activities of a ring of Orientals and Americans was believed unearthed with the arrest of Frankie Fisher, who police reported as a former member of the Bugs Moran mob of Chicago.

Police said Fisher had an opium pipe in his possession when arrested and had admitted taking opium for three months.

The recent arrest of Attilio Rovegno, better known as "Butch" Davis, on a narcotics charge, was said to have opened to the local investigation in an effort to locate the sources of supply for opium smokers.

Rovegno was a part-owner of the "Swing Club," night club frequented by film celebrities.

BLAIR BROTHERS ORDER NEW EQUIPMENT FOR BUSY SEASON

Mathew Blair of Blair Bros. Lumber Company, states that new machinery has been ordered and will be installed this spring at their mills, east of Placerville. The main unit, costing about \$5,000 is a fast speed matcher, designed for finishing lumber in varying sizes on all four sides at one operation.

"We look for a good year in the lumber business," Mr. Blair said, "with much activity in home building and repairing, both in Placerville and among summer home owners in the American River Canyon and in Lake Valley."

"Our mills will open about April 10th to 15th, if the weather will give us a break," he said.

Alex Ilsohn, injured recently in the wreck of the El Dorado Motor Transportation Company truck, was out and about greeting friends Wednesday. He reports that John Miller, driver of the truck, who suffered several rib fractures, is not doing so well and has returned to a Sacramento hospital.

MAIL CONTRACTS ARE AWARDED

New Bids Called On Thrice Weekly Service To Grizzly Flat Via Youngs P. O.

Announcement of the awarding of contracts on four truck mail routes operating into and out of Placerville has been made by the Second Assistant Postmaster General at Washington, while the awarding of the contract on a fifth route is pending, and a sixth contract is being re-advertised.

According to a notice posted at the postoffice, the Second Assistant Postmaster General will receive sealed proposals until April 19, on offers to supply tri-weekly service on the route between Placerville and Grizzly Flat via Youngs P. O. (a total round trip distance of 28.75 miles). Bond required is \$1,200 and the route now pays \$1,094 annually.

The contract on this route will be let for a period of four years dating from July 1, next. This also is the term of contracts let on the following routes:

To Walter Butts, daily service between Placerville and Camino;

To L. A. Dunn, seasonal service, daily during summer, between Placerville and Lake Tahoe;

To Gus Snider, of Garden Valley, daily service between Placerville and Auburn by way of Georgetown;

To William Overton, of Sacramento, daily service between Sacramento and Placerville.

Wednesday no word had been received locally concerning the contract on the route between Placerville and Auburn via Coloma, Lotus, Pilot Hill and Cool.

300 U. S. Sailors Ill At Sea

"Mild" Tonsillitis Epidemic Forces Aircraft Carrier To Withdraw From Maneuvers

HONOLULU, T. H., (UP)—Naval headquarters said today that an epidemic of tonsillitis aboard the U. S. aircraft carrier Lexington was under control.

Officials said that though 300 cases had been reported, all of the cases were mild. None of the patients appeared to be in danger. The Lexington has approximately 1,850 men aboard.

Because of the epidemic, the Lexington temporarily dropped from the war games.

Naval officials said it might re-enter the maneuver again tomorrow unless more illnesses are reported. In that event the most serious cases will be hospitalized ashore.

Withdrawal of the Lexington from the war games was necessary because hangar space aboard the giant aircraft carrier was being utilized for the sick men.

CANNON NAMED CHAIRMAN FOR LIONS CLUB GOLF TOURNEY

At the regular meeting of the Placerville Lions Tuesday, Lloyd Cannon was appointed chairman of a special Gold Tournament Committee to make arrangements for a play-off on the local golf course, in the near future among members of the club.

The chairman stated that his committee will begin qualifying players next Sunday. Those interested should turn out next Sunday, he said.

12 Tots Feared Lost In Canada Blizzard

CALGARY, Alta., (UP)—Royal Canadian mounted police today bucked the worst blizzard in years in an attempt to locate a school bus carrying an undetermined number of grade school children.

The bus, driven by Mrs. K. Brown, left Parkland, 75 miles south of here early yesterday, and had been unreported since. In the 10 mile route from the tiny southern town to the village schoolhouse, Mrs. Brown was to have picked up 12 school children.

Mrs. J. A. Norden is here from Bingham Canyon, Utah, visiting friends.

Sheriff George M. Smith, Euell Y. Gray, Guy E. Wentworth and District Attorney Henry S. Lyon were at Sutter Creek Tuesday evening attending the annual dinner of the True Sportsmen's club.

ALAS, POOR YORICK

PARADE OF SPORTS

By HENRY McLEMORE
(United Press Staff Writer)

ST. PETERSBURG, Fla., (UP)—It's a shame that Mrs. Alger's boy, Horatio, is not here to write this story, because it is a success piece that out-succeeds anything since "From Bootblack to Banker."

It concerns one Sammy Baugh, and how that young and handsome Texan, in the short space of 10 days, moved from the unenviable position of the rankiest rookie on the squad to the point where he is the regular third baseman for the St. Louis Cardinals.

When the National League season opens three weeks from now Baugh will be at third for the Cardinals. That's not a guess on my part, either. That comes straight from Frankie Frisch, who bosses the gas house gang, and is seconded by Joe Medwick.

"He's a cinch to get the job," Frisch told me. "He can't miss. And I'm just as surprised as you are. When he came to camp I thought he was just a football player, who could do us good only as a publicity gag. There were at least six players I rated above him. When we started looking so bad in exhibition games, I said, 'Hell, there's no use kidding around, I'll put that football player on third and show the boys just how bad we can look.'"

Put on third, almost for a joke, Baugh has been the sensation of the camp. In three full games he has handled sixteen chances as beautifully as Pie Traynor ever did.

"You can't get one by him, even with a .44," Medwick said. "And what an arm! No wonder he can whip a football around! He's as sweet a fielder as you'll see in Florida right now."

The only thing that Baugh lacks is finesse at the plate. Even without it, though, he is doing all right. In his three games he got four hits in twelve trips, and he wasn't looking at bushier pitching, either. The pitchers that worked against him were Gomez, Ruffing, Murphy, and Pearson of the Yankees, and Vernon Kennedy of Detroit. He can play in the National all season without looking at any hotter pitching than that.

So sure is Frisch that all Baugh needs is polish at the plate that he has told Sammy to throw away his glove, forget about fielding, and concentrate on developing a swing with the bat. The Texan has the power. He has proved that by knocking longer balls in practice than Medwick. But his wrist and foot action are faulty. One of those helping him find a better stance and swing is Medwick, the National League's mightiest hitter.

"Everybody on the team wants to help Sammy," Medwick said. "He's a swell guy. He wants to learn. He's willing to work. And he has all the heart in the world. I guess he would have to have that to take the beatings he got in pro football. I saw him a couple of games and he took a licking I wouldn't take for 50 grand a year."

After talking to Frisch and Medwick,

POLICE "SUSPEND" LAW FOR BOY'S LOVE OF HIS DOG, KILLED

NEW YORK, (UP)—Joey Smolich, 12, and his little gray poodle, Rags, were romping in a street of the "Hell's Kitchen" district.

The boy saw a suddenly approaching automobile in time to dodge it. But Rags was hit.

Joey bent to touch his dog and Rags, in his dying agony, turned and did the first disloyal thing in his life. He bit his master.

The motorist said Joey's bleeding hand ought to be treated at a hospital. The boy said please take them to a veterinarian. When they got there Rags was dead. Only then would Joey go to a doctor.

When the police came and tried to take Rags' body from the boy's arms. They told him it would have to be tested for rabies.

Joey stood there holding Rags tightly and weeping for permission to bury

Japanese Influx Stirs British Columbians

VICTORIA, B. C., (UP)—British Columbia—the single province in Canada where Japanese exist in large numbers—fears that within the next 50 years it might be a province entirely controlled by Japanese.

The infiltration of Japanese into the province, their penetration into industry and their virtual control of numerous industries, has resulted in repeated warnings from lecture platforms, appeals to the Dominion Parliament to close the immigration gates, and a flood of letters to British Columbia newspapers calling for action to avert the impending situation.

Leo Oswald was in town Wednesday from Somerset.

his dog. The police didn't have the heart to enforce the rule that the body be disposed of by the health department. So the regulations were waived for Joey and his dog.

48,000 BOTTLES OF BEER CAUSE COLLAPSE OF WAREHOUSE WALL

DENVER, (UP)—It took 48,000 bottles of beer, but three warehouse employees are convinced that the brew has a kick. They are recovering in a hospital.

Henry Foster, 22, Wayne McKenzie, 22, and Cecil Dingman, 32, were at work on a loading dock when a wall of the warehouse collapsed, burying them beneath 2,000 cases of beer. Firemen from two companies were called to extricate the workers.

Foster's elbow and jaw were fractured. McKenzie suffered a fractured cheek bone. All were cut and bruised.

TOWN RAT KILLER

SAN MARINO, (UP)—Rats have become so numerous and inflicted so much damage on all kinds of property that the city council has engaged an official rat killer.

New Highway Doooms Old Home Of E. E. Rexford

SHIOCTON, Wis., (UP)—The home of Eben Eugene Rexford, author of "Silver Threads Among the Gold," may be bought for the moving.

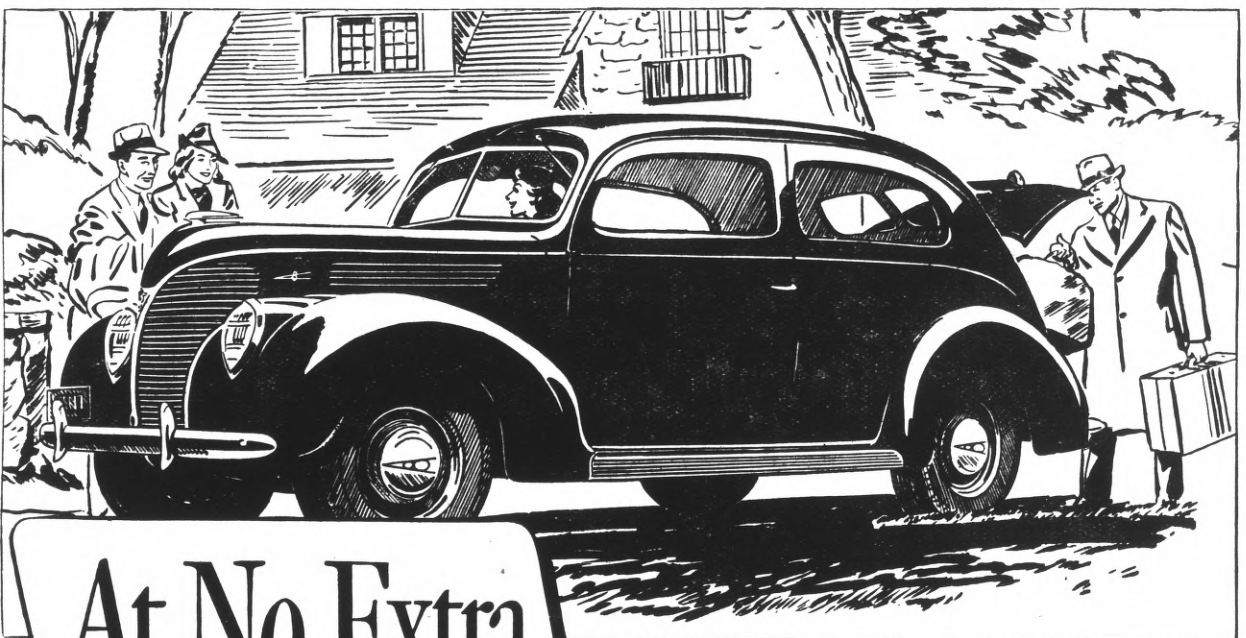

The state of Wisconsin plans to run a highway over the grounds where this poet and expert floriculturist worked, wrote, and lived the last 40 years of his life.

Condemnation proceedings are in progress against the property. When they are completed, the state will be willing to give the dilapidated house to anyone who will move it from its present site, according to L. W. Empey, district highway official.

125,000 SKULLS

LITTLE ROCK, Ark., (UP)—More than 125,000 skull fractures occur each year in the United States, according to the Arkansas Medical Society. The Society said most skull fractures were the result of automobile accidents.

BRONCHO BILL

The Knock-Out

By Harry F. O'Niell

SACRAMENTO TO ACCEPT HISTORIC PONY EXPRESS SITE

The city of Sacramento will be officially presented with its first Pony Express station—the gift of the Western Union Telegraph Company—on Sunday, April 3. Governors of California, Nevada and probably other nearby states and the mayor of Sacramento will participate with the telegraph company officials in the dramatic ceremonies.

It will be an occasion for rejoicing by members of the Oregon Trail Memorial Association, whose regional director, H. C. Peterson, curator of Sutter's Fort, will head up a large group and whose program includes invitations to scores of mayors and high public officials, historical groups, Boy Scouts and patriotic societies.

The building is the old Pacific Telegraph office, from which on April 3, 1860, began the famous ride of nearly two thousand miles, by which the east and the west were for the first time linked by a ten-day mail service, carried in relays by strong young riders on wiry ponies, between Sacramento and St. Joseph, Mo. Henceforth, the station will be a museum and library, according to director Peterson.

From New York City, Dr. Howard Driggs, president of the Oregon Trail Association, has sent messages to more than a hundred cities and towns along the old trail, urging participation in Sunday's ceremonies in person and through messages of congratulation. At the same time, Dr. Driggs has issued details of the summer program of the association, which includes the location and marking of nearly one hundred of the old stations, in addition to about seventy-five already so marked.

AUTO DEALERS HOPE TO HELP SOLVE USED CAR PROBLEM

DETROIT, Mich., (U)—One of the topics scheduled for consideration at the forthcoming 21st annual convention of the National Automobile Dealers Association to be held in Detroit, April 25-26-27 will be the development of an industry program aimed at systematically eliminating from use, outmoded, unsafe motor vehicles, commonly referred to by the industry as "junkers."

According to A. N. Benson, general manager of N. A. D. A. it is not the genuine "junkster" that is responsible for the trouble, but rather, the millions of older model, outmoded motor vehicles which still possess considerable unused transportation although they are only of nominal value. He declared that automobile dealers from all sections of the United States have shown a pronounced interest in this subject in recent months, due to the excessive accumulation of these older motor vehicles in inventories.

District Attorney Lyon was a visitor on Wednesday at Sacramento, attending to business matters.

IT'S MAPLE SUGAR TIME AGAIN—Maple sap is running in New England—a sure sign of spring. Right is John Wyman, West Keene, N. H., who has collected sap like this for over 50 years, on the farm that has been in his family for five generations. Covered pails exclude rain. Sap is boiled for sugar and syrup.

MORE THAN 276,000 CHECKS DRAWN IN PAYMENT OF CLAIMS UNDER STATE UNEMPLOYMENT DEPARTMENT; 18,588 WRITTEN IN ONE DAY

SACRAMENTO — Check writing operations of the State Department of Employment are up to date, with all valid claims for the weeks previous to March 19 written.

More than 70 per cent of the valid claims for the week ending March 26 have also been written.

This announcement was made today at Governor Merriam's council meeting by Carl L. Hyde, executive director of the department, who gave the information to members of the unemployment reserves commission.

Hyde said more than 276,000 checks had been written by the Department at noon Saturday, and that from 7 a. m. to 7 p. m. Saturday, a total of 18,588 checks were run through the machine, the largest run yet accomplished.

The commission, according to Jas. L. Matthews, chairman, has taken action to clear the files in district offices of claims filed by persons who have failed to report for 21 days.

Matthews said that through this action, a total of 68,013 claims out of a total of 215,543 filed had been placed in the "inactive file" of the Department's 62 offices throughout the state.

Matthews said approximately 34 per cent of all the claims filed had been determined invalid, that is, they showed no benefits payable because of insufficient or no earnings.

To date, 112,371 claims have been determined valid, but many of these are not yet due for payment.

Under the original plan, Matthews said, the Department expected to pay claims the second week after the first compensable week. However, the department has stepped up production,

he said, so that the majority of the claims are being paid the first week following the compensable week.

The following announcement was made by Matthews: John S. Horn, Los Angeles; John F. Chambers, Oakland; Samuel Leask, Jr., Santa Cruz; and Carleton B. Tibbets, Los Angeles.

"The commission announced about two weeks ago that all payments would be on a current basis by March 31.

"We are, however, four days ahead of schedule, and are actually on a current basis at the present time with valid claims. Claims which the department has determined invalid and on which requests for reviews of earnings are made, are being handled as quickly as possible.

"It is re-assuring to note that only ten per cent of the claims held invalid by the Department are proving to be actually claims on which benefits are payable. This reveals that the Department system of establishing earnings records for employees while not infallible is at least 90 per cent accurate in computing benefits payable to claimants."

Average Iowan Keeps Job 15 Months

DES MOINES, Ia. (U)—With an Iowa industrial labor turnover of 20 per cent every three months, the Iowa unemployment compensation commission estimates that the average Iowan working man sticks to his job for 15 months.

Mrs. Percy McNie was in town Tuesday from Camino.

Power Rating Of Autos Up 60 Per Cent

Horsepower rating of the average automobile has increased 60 per cent since 1930, according to a tabulation made public by the state department of motor vehicles.

The figures, compiled by a leading motorcar manufacturer, show that the average horsepower in 1930 was 54 while in 1936 it reached 86.

Pastor's Woodpile For Needy Families

ST. LOUIS (U)—The Rev. C. C. Rinebarger, believing the only answer to the relief problem is work, has established a community woodyard next door to the Central Church of the Nazarene.

Through this medium the Rev. Rinebarger provides work for the jobless and free wood if they come and cut it. He said nine families had been kept alive this winter by providing them with fuel.

TOWN MAY SAVE SOAP

PINE BUSH, N. Y. (U)—This village is considering installation of a water softening plant which would, experts estimate, permit the villagers to use about one-sixteenth the amount of soap now required with "hard" water.

KIN OF FAMED PIONEER IN STATE WILL SEEK LIEUT.-GOVERNORSHIP

Carrying on the traditions of one of the oldest and most highly respected Northern California families, John M. Burnett, 35 year old San Jose attorney and great-grandson of Peter H. Burnett, democrat and California's first governor, has announced his candidacy for the democratic nomination as lieutenant governor.

Considerable interest attaches to young Burnett's announcement, especially among Party leaders throughout the state who have long been familiar with his record of service to the democratic party. He has held office of secretary of the Santa Clara county democratic central committee since 1934 as well as a similar office with the eighth congressional district democratic committee.

John M. Burnett, the records disclose, was a delegate to the national democratic convention in 1936. He was also a member of the platform committee of the state convention in 1936, and served as chairman of the committee on organization at that time. In 1932 and again in 1936, he stumped the northern part of the state in behalf of President Roosevelt. He is now a member of the democratic state committee.

LAMB DISAPPOINTS

TORONTO, (U)—Mary had a little lamb whose fleece was white as snow, but it did not get to first base at the Toronto Winter Fair. Mary War-nica of Barrie exhibited her Cotswold lamb but the competition was too keen.

TRAFFIC FATALITIES IN STATE DECLINE DURING TWO MONTHS

SACRAMENTO — There were 99 fewer traffic deaths in California during the first two months of 1938 than during the corresponding period of 1937. Director Ray Ingels of the Department of Motor Vehicles revealed today in a report to Governor Frank F. Merriam.

The figures for this year show 220 deaths in January, 195 in February, while the January figure for the last year was 305 and for February, 209. Director Ingels said that the present intensive campaign for safe driving, both through enforcement and education, apparently was bringing the desired results.

He pointed out that this reduction, if maintained during the year, would bring the California total for 1938 under 2,000.

The toll for 1937 was 3,139 fatalities. **EAT MORE BEANS** SALINAS (UP)—California bean growers expect every American citizen to do his duty. To save the industry, each must eat more beans they say.

Hailstone Injury Closed With Five Stitches

NOWATA, Okla., (UP)—Evidence for her story that hailstones "as big as hen eggs" fell in a recent storm was presented by Mrs. Nellie Weaver, farm woman of near here.

Physicians used five stitches to close a gash on Mrs. Weaver's head. She explained that a hailstone hit her as she dashed from her back yard to her storm cellar.

Riverside Man Named Assessor Advisor

SACRAMENTO, (UP)—John H. Keith, former Riverside county official has succeeded Ed J. Kay as advisor to state board of equalization assessors. Kay was retired under terms of the state old age retirement act.

Keith is a University of California Graduate. He became chief deputy county surveyor for Riverside county, later serving as chief assessor. Since 1933 Keith has served with the board as valuation engineer.

Peremptory Challenging Of Judges Ruled Out

SAN FRANCISCO, (UP)—The peremptory challenging of judges, provided in a statute of the 1937 legislature, was declared unconstitutional in a decision handed down here late yesterday by the State Supreme Court. The court ruled such challenging was an "unlawful interference with the state constitution and the orderly process of the courts."

ILLINOIS DEMOCRATS IN PRIMARY FIGHT FOR GOVERNORSHIP

By RAYMOND LAH

United Press Staff Correspondent SPRINGFIELD, Ill., (UP)—A bitter factional fight among democrats, with each side claiming to be the true supporter of President Roosevelt, features the 1938 campaign in Illinois, where the first voters in the nation will mark ballots to select nominees for the off-year election.

Among Republicans there is almost no contest in the primary campaign and organized opposition to the GOP slate endorsed by Republican leaders.

The primary will be held on April 12th.

The democratic party is split along the same lines which resulted in renomination of Gov. Henry Horner in 1936 over a candidate endorsed by the potent Chicago party organization led by National Committeeman Patrick A. Nash and Mayor Edward J. Kelly.

The two factions now are aligned behind Rep. Scott W. Lucas, a downstate man, and Michael L. Igoe, U. S.

50 Turn Out For Card Football Practice

STANFORD UNIVERSITY, (UP)—Coach Tiny Thornhill counted 50 candidates at his first spring football practice session. He announced that four practices will be held each week until June 4. Thornhill said he expected the squad to grow to 65 as athletes were released from spring sports.

Republican classified ads always pay.

College System Tried In Grade School

DAWSON, Okla., (UP)—George Hooper, principal of Bryant School in this town of 700, has brought university teaching methods into the third, fourth, fifth and sixth grades by a process which he believes may start a new trend in elementary education.

Hooper says the essence of his plan is to put youngsters of from 8 to 12 years on the level of students of more advanced years by employing advanced teaching methods which encourage initiative and the students' creative ability.

POTTERY MAKING

CORVALLIS, Ore., (UP)—A course in pottery will be inaugurated at Oregon State College this spring term. Miss Dorothy Bourke will conduct the class at which vases, bowls and other articles will be made.

district attorney in Chicago, as democratic candidates to succeed the incumbent, William H. Dieterich, who withdrew from the primary race.

Republicans have sought to put forth a "harmony" ticket and have given almost unanimous support for the senatorial nomination to Richard J. Lyons, member of the state house of representatives and a real estate dealer in a northern Illinois town.

The GOP is watching the democratic fight, hoping that the losing faction will give but lukewarm support to the winners, or that nomination of Igoe will throw many downstate votes to Lyons in November to prevent election of another Chicagoan.

PENNSYLVANIA, DELAWARE PREPARE TO OBSERVE 300TH ANNIVERSARY

By JOHN F. FRANKISH

United Press Staff Correspondent PHILADELPHIA, (UP)—Pennsylvania and Delaware celebrate their 300th anniversary April 8 in commemoration of the arrival in 1638 of the first colonists from the Old World, a little band of Swedes under the command of Peter Minuit, Dutch soldier of fortune.

Observances in Pennsylvania and in communities throughout the nation, where Americans of Swedish, Finnish and Dutch descent will meet, are scheduled to come to a climax on that date, designed as Forefathers' Day in this state.

The high point of the Delaware celebration will come late in June when Crown Prince Gustaf Adolf and Crown Princess Louise of Sweden land from the S. S. Kungsholm near the spot where the first colonists set foot on the New World.

The royal couple will dedicate several historical monuments in Delaware, southeastern Pennsylvania and southern New Jersey, the area which comprised the colony of New Sweden, during their visit.

SWING EXHILRATING

SYDNEY, (UP)—Swing music has been justified before its eventual death. Joyce Barry, 18, attributes her winning a 568-mile cycling record to the fact that swing music kept her awake and pumping most of the way.

Ranger Raleigh Bryan was confined at his home Wednesday by illness.
